DETAILED ACTION

Examiner's Amendment

An Examiner's Amendment to the record appears below. Should the changes and/or additions be unacceptable to Applicants, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this Examiner's Amendment was given in a telephone conversation by Ms. Dawn-Marie Bey on September 23, 2005.

Claims 3-6, 9-11 and 16-23 are cancelled.

Claim 12 is amended as below:

Claim 12. A computer-implemented method for leveraging a financial relationship between a customer and a financial institution, comprising:

- establishing a financial account at the financial institution for the benefit of the customer;
- adding value to the financial account at predetermined intervals, wherein the value is comprised of immediate access value and vested access value, and further wherein the immediate access value is added to the first financial account by the customer in an amount determined by the customer and at the direction of the customer;
- using the computer to calculate the vested access value by
 - (a) determining a number of individual components comprising the financial relationship;
 - (b) calculating an individual value for each of the individual components at the

end of a set period of time,

(c) multiplying the determined individual value of each of the individual components by a pre-selected percentage to obtain a vested access value; and adding the vested access value to the financial account, wherein the immediate access value is retrievable by the customer from the financial account without restriction, but the vested access value is only retrievable by the customer after a predetermined period of time.

Allowable Subject Matter

Claim 12 is allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 12, the best prior art of record, *Shurling et al*, neither discloses nor fairly suggests the limitation of calculating an account value by calculating an individual value for each of a set of individual components at the end of a set period of time, multiplying the calculated individual value of each of the set of individual components by a pre-selected percentage to obtain a vested access value, and adding the vested access value to the financial account, wherein the immediate access value is retrievable by the customer from the financial account without restriction, but the vested access value is only retrievable by the customer after a predetermined period of time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
